## SAINT-VÉРАН "En Faux"

### DESCRIPTION OF THE TERROIR

Located in the South of Burgundy, in the Mâconnais/Beaujolais region, the Saint-Véran Appellation is situated on both sides (north and south) of the Pouilly-Fuissé Appellation. Total assigned area: 1 500 acres of limestone rich soils located on 7 villages. This rather recent Appellation (1971) was created to designate the best vineyards of the Beaujolais Blanc and Mâcon Blanc Villages Appellations. Most of the 18 acres of the Château de Beauregard are located on the village of Chasselas, at the border with Pouilly Fuissé. The 'Climat' 'En Faux' is located on the south facing slope of Mount Pouilly, at an altitude of 270m. The rocky calcareous and marly soils are rich in iron oxide (brick colour).

### VINES AND VITICULTURE

Grape variety : Chardonnay 100% - Average age of the vines: 35 years. The vineyard is managed to promote microbial life in the soil, to encourage deep rooting of the vines. Strict control of the yields; culture respectful of the environment; ploughing ; 100% hand picked.

### WINEMAKING AND DESCRIPTION OF THE WINE

Harvested at the optimal maturity level, our grapes are sorted, if necessary, on a vibrant table before the slow process of pressing. Then the musts are allowed to settle down for 24 to 36 hours (débourage). Most of the cuvée ferments in 'Pièces' (228l oak barrels) and ages for about 10 months with a little 'bâtonnage' (stirring of the lees). This long ageing, traditional in Burgundy, favour the genuine expression of 'En Faux'. A racking and a light filtration are made before bottling. Saint Véran 'En Faux' reveals a good minerality and ripeness. The wine is expressive when young and generally evolves towards toasted and honeyed notes; the finish is long with grapefruit flavours.

### FOOD MATCHING

Serve between 12 and 15°C in fine crystal glasses. Saint Véran 'En Faux' matches well with scallops, grilled or 'en sauce' fish, 'quenelles' and 'andouillettes' and of course goat cheese from the Mâconnais.
